SUMMARY

Dedicated Incident Response Engineer and Software Engineer with comprehensive expertise in SIEM operations, cybersecurity setup, and software development. Proven track record of implementing advanced technical security solutions, conducting forensic investigations, and contributing to threat intelligence efforts. CNPR Certified with ongoing pursuit of Security+ certification.

KEY SKILLS

- SIEM Operations & Implementation
- Threat Intelligence & Malware Analysis
- Vulnerability Management & Remediation
- Forensic Investigation
- Incident Response
- Network Security
- Linux Networking
- Web Development (HTML, CSS, JS, Python, React)
- SQL

RECENT RELEVANT EXPERIENCE

RTCS (Rethinking Consultant Services)
Incident Response Engineer | Nov 2021 - May 2022

- Provided high-level support and monitored various security systems, including firewalls and email security mechanisms.
- Conducted forensic investigations of phishing alerts, cloud security, and malware/spyware threats.
- Performed security operations, vulnerability assessments, and risk assessments utilizing tools such as Splunk, McAfee EPO, Symantec DLP, and FireEye.

- Monitored SIEM views and generated reports on network activities, contributing to proactive threat mitigation.
- Installed, configured, and supported Linux networking services and protocols.
- Assisted in building a new server in the DMZ to enhance network security.

GAIN AMERICAN
Software Developer | June 2020 - Jan 2021

- Developed web solutions and prototypes with a focus on user interface design.
- Translated high-level technical features into prototype designs and documentation for client review.
- Conducted ongoing user testing to ensure functionality and usability.
- Managed experience, A/B, functionality, and unit testing processes.
- Participated in customer service and technical analysis meetings to gather end-user feedback.
- Demonstrated programming proficiency in HTML, CSS, JavaScript, Python, React, and SQL.

EDUCATION AND PROFESSIONAL DEVELOPMENT

- Bachelor of Science in Information Technology: Software Development (2020)
  New York City College of Technology, New York, NY
- CNPR Certificate | Google IT Technical Support Fundamental | Security+ (In Progress)
